

**PGCE Music Pathway Reading List
July 2022**

**School of Education
PGCE Secondary Programme**

Dear PGCE Student

Music Education is at an exciting stage in its evolution with the New National Plan for Music Education and *Musical Futures* to name but two of the current developments.

You need to read the following Chapters from Teaching Secondary Music, edited by Jayne Price and Jonathan Savage and published in 2011 by Sage Publications in preparation for the start of your PGCE.

Part One: Exploring Music through the Curriculum

- The Key Concepts of Musical Teaching Savage, J (2011)
- The Key Processes of Musical Learning Price, J (2011)

During our postgraduate year we shall discuss widely and explore many issues together. There are many important texts that will help you hone your own perspective. We shall use **Learning to Teach Music in the Secondary School: A companion to school experience, by Carolyn Cooke (editor) 19th April 2016 Routledge Falmer**, as our core text. I recommend you purchase a copy of this. An effective way of covering a lot of ground in one year is through peer-directed sessions where each of us (probably in pairs) examines and presents issues to the group for discussion. You will receive the full reading list for your subject and also for generic teaching texts in the first week of the course but I highlight below some of the texts, which have proved very stimulating in the past. Any of them could serve as a good preview to the course as summer reading.

Some of the listed articles/books may no longer be in print. However you may be able to access them through local libraries. **YOU ARE NOT EXPECTED TO PURCHASE ALL THESE BOOKS/ARTICLES.** There are copies of most in the library.
